Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-28 and 38-49, drawn to a method and apparatus for associating portable communication devices with a predetermined broadcast comprising providing the portable communication devices preset to receive the predetermined broadcast, classified in class 455, subclass 3.06.
 - II. Claims 29-37, drawn to a housing of a portable radio, classified in class 455, subclass 575.1.
 - III. Claims 50-58, drawn to a system for providing a tour of an area having points of interest comprising a plurality of infrared transmitters located at the points of interest for transmitting an audio communication associated with its points of interest, classified in class 455, subclass 41.1.
2. The inventions are distinct, each from the other because of the following reasons:
3. Inventions [I] and [II] are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention [II] has separate utility such as a housing of a portable radio. See MPEP § 806.05(d).

Art Unit: 2682

4. Inventions [I] and [III] are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention [III] has separate utility such as a plurality of infrared transmitters located at the points of interest for transmitting an audio communication associated with its points of interest. See MPEP § 806.05(d).
5. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
7. Applicant is advised that the response to this requirement to be complete must include an election of the invention to be examined even through the requirement be traversed.

Art Unit: 2682
